

North STL County Community Connector Open House Station Guide

May 2023

Welcome!

Thank you for attending today's open house on the North STL County Community Connector. This guide provides an overview of the information presented at each station. Members from the project team are at each station to answer your questions. Please be sure to complete a comment form before you leave.

Station 1 - North STL County Community Connector Project Overview

At this station, review the various alignment options being studied for the North STL County Community Connector and how they interact with the City's proposed Northside Southside Project. Also learn about the project benefits, the project purpose, and the project timeline.

Station 2 - Project Design Elements

Learn about project design assumptions being considered for the City's Jefferson Avenue Alignment including the type of train that will be used and how rail could fit into the street. These same design elements could be part of the North STL County Community Connector.

Station 3 - Interactive Station

Visit this interactive station to see key locations and features along the North STL County Community Connector alternatives and the Jefferson Avenue Alignment. Watch a slideshow with examples of other modern light rail transit systems around the country and/or tell us which components (i.e., parking and sidewalks) are most important to you when it comes to fitting light rail on the existing street.

Station 4 - Jefferson Avenue Alignment Project Information

The City of St. Louis is currently designing its modified Jefferson Avenue Alignment. At this station, learn more about the benefits of the alignment and the platform design for each proposed station.

Station 5 - Public Involvement and Project Next Steps

Learn how the public has been engaged up to this point in the project and what we have heard. Also, learn what's next.

Station 6 - Metro Secure Platform Plan

Metro Transit has developed a Secure Platform Plan that changes the current open access platform system to a closed platform system with centralized, highly secure customer entrances. At this station, view more details of the Secure Platform Plan and get your security questions answered.

Station 7 - Metro Services

Have questions about current MetroLink, MetroBus and/or Call-A-Ride services? Get your answers at this station. Also, learn more about the transit services that Metro has to offer.

Station 8 - Comment Area

Your voice matters to us! Complete an online comment form on one of our iPads or a paper version. You can also complete the online comment form on your smartphone by scanning the QR code below.
