

# Jefferson Avenue Alignment Open House Station Guide

May 2023

## Welcome!

Thank you for attending today's Northside-Southside open house on the Jefferson Avenue Alignment in the City of St. Louis. This guide provides an overview of the information presented at each station. Members from the project team are at each station to answer your questions. Please be sure to complete a comment form before you leave.

### Station 1 - Jefferson Avenue Alignment Project Overview

At this station, review the Northside-Southside's modified Jefferson Avenue Alignment and learn about the purpose for this project and the timeline.

### Station 2 - Project Design Elements

Here learn about the various project design elements for the alignment from the type of train that will be used to how rail will fit in the street. Also, view the various platforms for each station.

### Station 3 - Interactive Station

This station is where you can tell the project team which components (i.e. parking, sidewalks) are most important to you to consider when it comes to fitting light rail on the existing street. Also, visit the interactive station to see locations and features along the project and/or watch a slideshow with examples of other modern light rail transit systems around the country.

### Station 4 - North STL County Community Connector

St. Louis County is currently conducting an alternatives analysis of several potential alignments that could possibly connect to the Jefferson Avenue Alignment in the City of St. Louis along Natural Bridge Avenue. At this station, learn about this project called the North STL County Community Connector.

## **Station 5 - Public Involvement and Project Next Steps**

Learn how the public has been engaged up to this point in the project and what we have heard. Also, learn what's next for the Jefferson Avenue Alignment project.

## **Station 6 - Metro Secure Platform Plan**

Metro Transit's Secure Platform Plan changes the current open access platform system to a closed platform system with centralized, highly secure customer entrances. At this station, view more details of the Secure Platform Plan and get your security questions answered.

## **Station 7 - Metro Services**

Have questions about current MetroLink, MetroBus and/or Call-A-Ride services? Get your answers at this station. Also, learn more about the transit services that Metro has to offer.

## **Station 8 - Comment Area**

Your voice matters to us! Complete an online comment form on one of our iPads or a paper version. You can also complete the online comment form on your smartphone by scanning the QR code below.
